CHICKERING & SONS,
PIANOFORTES.

THE subscribers take pleasure in informing the public that they have been appointed **Sole Agents for these Celebrated Instruments for the State of Rhode Island,** and they would invite special notice to their intention of offering for sale at their NEW WAREROOMS a larger and more complete stock of Grands, Uprights and Squares, made by this Celebrated Firm, than has previously been exhibited in this city.

The subscribers have been conscious of the extraordinary merits and sterling qualities of the CHICKERING PIANOS for many years. This has resulted from a large experience in the sale of Pianos, many of which were from the best makers in the country and a careful observation of the various points of excellence attained by each particular maker, together with the opportunities afforded from their close connection with the Musical World, of hearing the most unanimous opinions of the greatest artists in favor of the Chickering Piano, and finally, upon witnessing the last and crowning triumph at the recent Paris Exposition over all the most celebrated makers in the world. The peculiar points of superiority to be found in the Chickering Pianos have been so frequently and minutely retailed by the Press that we do not consider it necessary in the Card to comment farther upon them. We shall keep in connection with the above, a choice assortment of PIANOS from good and reliable makers at a lower price.

"LET US HAVE PEACE!"

GRAND
NATIONAL PEACE JUBILEE
AND MUSICAL FESTIVAL.
To be held in the City of Boston,
June 15, 16, 17, 18 & 19, 1869,
To commemorate the restoration of PEACE THROUGHOUT THE LAND.

THE COLISEUM
In which the Jubilee is to be held will afford ample accommodation for nearly FIFTY THOUSAND PERSONS, and the series of Musical Entertainments will include oratorio performances by the

GREATEST CHORUS
ever organized in any part of the world, made up of Musical Societies from all sections of the country, and TWENTY THOUSAND CHILDREN from the public schools, with an Orchestra of

ONE THOUSAND INSTRUMENTS,
comprising many of the principal Bands and best Musicians in the United States.

DISTINGUISHED GUESTS
from all sections of the Union, including NATIONAL AND STATE OFFICIALS will participate in the Jubilee, and the citizens of Boston will be prepared to extend those hospitalities and attentions to visitors from abroad which they hope may serve to inaugurate the return of kind and fraternal feeling among all American citizens, and aid in perpetuating throughout the world, "PEACE ON EARTH, GOOD WILL TOWARD MEN."

The immense outlay attendant upon this vast undertaking has been guaranteed with an unexampled promptness by the citizens of Boston, ensuring for the Festival and Jubilee every success which pecuniary aid can command.

The following scale of prices has been established:

SINGLE ADMISSION, *with* secured seats, $5 and $3, according to location.
SINGLE ADMISSION, *without* secured seats..........$2
SEASON TICKET—transferable—admitting three persons to all the entertainments given in the Coliseum during the season..........$100

The sale of seats will commence at the Boston Music Hall, Monday, May 31. Orders for seats, accompanied with the money, may be transmitted by music dealers throughout the country, or by mail or express, directed to

A. P. PECK, Ticket Agent,
Boston Music Hall, Boston, Mass.

PARKER & CO'S
GREAT ONE DOLLAR SALE
OF DRY GOODS, LINENS, PARASOLS, ALBUMS, HOSIERY, SILVER PLATED WARE, JEWELRY, CUTLERY, FRENCH and GERMAN FANCY GOODS, of every description, you can purchase anything in their immense stock for
ONE DOLLAR EACH.

The secret of our low prices is this:—We have a very large Cash Capital, and have buyers in all the principal cities of this country and in Europe, who purchase FOR CASH, DIRECT FROM THE MANUFACTURERS, all the goods used by us, thus saving the consumer the profits made by the Importer or Commission Merchant, the Wholesale and Retail Dealer, each of whom demand a larger profit than taken by us. We can give **MORE GOODS FOR ONE DOLLAR** than the Retail Merchant for twice or three times that sum. Our goods are described on printed checks, which will be sent in Clubs for Ten Cents each, to pay postage, printing, &c.

If the article named on the Check is not wanted, you can exchange from a list comprising **Three Hundred and Fifty useful articles,** among which are—

LADIES' SILK PARASOLS, LADIES' FINE WHITE TUCKED SKIRTS, SILVER PLATED FIVE BOTTLED CASTORS, and a large variety of useful articles, not one of which can be bought in any other way for nearly double the money.

Reference will be given, if required, from the most reliable Wholesale Merchants of Boston and New York, as to our standing and the strictly honorable character of our business.

Good Cows for poor Men.

Every poor man who can afford to do so naturally keeps a cow; but he generally makes the mistake of keeping a cheap cow, that is a cow of poor quality. Spending from forty dollars to sixty dollars for her purchase, he secures an animal that, on not very abundant food, but still kept at some expense, supplies the family with milk enough for their use. He considers the operation a profitable one, and undoubtedly it is so. Many poor men would be inclined we fancy, to think us wild in advising them to pay so much as even one hundred or one hundred and twenty-five dollars for an extra good cow, the best that can be found in the neighborhood; yet we are confident, that in a majority of cases, due care being given to the [illegible] kept for the family use of poor men will not give more than one thousand five hundred quarts of milk per annum, or at the most, one thousand eight-hundred quarts. This amount of milk, in the family of the ordinary mechanic or laborer, is worth five cents a quart for home consumption,—say seventy-five dollars or eighty dollars a year. Out of this sum is to be paid the interest on the animal's cost, her depreciation in value and the price of purchased food, which is more or less according to the circumstances under which the family live. For one hundred and twenty-five dollars, even in other districts than those which are chiefly devoted to the keeping of cows, an excellent animal, frequently a grade Ayrshire or Shorthorn, may be purchased, that will give with good care on rich food, not less than four thousand quarts of milk per annum. Instances are not rare of the yield reaching even five thousand quarts. With such an animal, we will suppose that as in the previous case, one thousand five hundred quarts are consumed by the family, and are estimated to be worth seventy-five dollars. This leaves two thousand five hundred quarts of milk for sale; and in almost every village in the land, this milk may be readily sold at the door for six or eight, and not seldom for ten cents a quart. At the least price, six cents, the total amount of sales would be one hundred and fifty dollars, which would pay for the extra food required to keep that larger animal in the best condition, and for the increased interest and depreciation, and leave a handsome profit besides. Any cow must be sheltered, fed, milked, and generally attended to. The amount of labor required in the case of the better animal is in no respect greater than in the case of the poorer one. The profit of the operation is all real profit, and no small account should be made of the greater satisfaction and pleasure that result from full milk-pails than from those half full, from fine cows than from "scrubs." It is a return to that old principle, that whatever is worth doing at all is worth doing well; and if it will pay to keep any cow at all it will surely pay to keep the best cow that we can afford to buy.—*American Agriculturist.*

California's Big Trees.

The majestic body of the Father of the Forest, which lies half buried in the earth, measures 110 feet in circumference at the base, and 200 feet in length to the first branch, and being hollow, a person can walk that length erect. The estimated height of this tree when standing is 400 feet. The 'Burned tree,' prostrate also, is hollow to the height of 60 feet, and persons can ride on horseback through it; for that distance it is 97 feet in circumference, and stood 330 feet high. There are several other trees of immense size variously named—Hercules, Uncle Tom's Cabin, Pioneer Cabin, Three Sisters, Siamese Twins, Twin Brothers, Lone Widow, Widow and Son, Beauty of the Forest, Pride of the Forest, etc.

BEANS.—There is a difference in the hardiness of garden beans; and only the more hardy kinds should be planted till the middle or latter part of the month. Lima and the more tender pole beans, succumb to a light frost, and then the planting must be done over. Dwarf or bush varieties may be planted a little earlier, and if frost is threatened, a board may be laid over the row, resting on bricks or blocks to avoid crushing the plants. Plant out pole beans after frosts are past; set the poles first, firmly in the ground, four feet apart, and plant six or eight beans around each pole; leave the Limas till the last, and be sure and stick them eyes down, barely covering them with one fourth an inch of fine soil. The Germantown *Telegraph* says that greasing the beans before planting prevents them from rotting, and does not injure their germination.

THE LAWRENCE PEAR.—The editor of the Germantown *Telegraph* says:

'This pear does not receive as much attention by general growers as it deserves. We have few superiors in point of quality or for keeping late, and none in its early fruitfulness of the tree. It is very accommodating too, in ripening. It commences to mature in the latter part of October, and goes on, as it is exposed to a warm atmosphere or kept in a dark, cool place of even temperature, up to March! We should suppose it would be just the pear for general cultivation among farmers; who, if they would give it the same attention they give to other crops of the farm, would be sure to get an abundance of excellent fruit.'

TO PRODUCE LARGE STRAWBERRIES.—Remove the soil round each hill to the depth of half an inch or more, without disturbing the roots; then spread evenly over an area of twenty inches in diameter, a pound or more of finely pulverized linseed meal or oil meal, and cover it with mellow soil; then spread a mulching of hay or straw two inches deep over the entire surface between the hills. Should the weather be warm and dry, a liberal supply of warm water daily will promote the growth of both vines and berries. Pull up weeds and grass among growing strawberries, rather than cut them up with hoes, as a system of roots is formed near the surface of the ground, which should not be injured with a broad hoe.

LICE ON CATTLE.—I have always tried the following remedies with good success:—1. Take hogs' lard, melt it and mix yellow snuff (about one-eighth of a pound to one quart of lard; rub the back from head to tail, around the neck and ears, with it. I never knew this to do any injury to cattle. 2. Kerosene oil is very good, but if you get on too much it will take the hair off. 3. Take very dirty rotten potatoes, boil them and wash the cattle with the water. The above are all I have tried.—*A Reader.*

NEWPORT DAILY NEWS.

Political Corruption.

Whether or not Mayor Doyle had other reasons for withdrawing from the political canvas in Providence, those given constitute a merited rebuke to both the contending factions, and to Rhode Island politicians generally. When it comes to pass that two political parties, or what is just the same, two wings of the same party go into the market places with open hands to buy up voters, and pour out their money like water, it is time for honest men to stand back.—We think that the city of Providence will bear off the palm in political corruption among all the cities of America. Mr. Doyle could not consent to be a candidate when his friends as well as his opponents were engaged in this nefarious business, and we say all honor to the man for his decision.

We have looked over the columns of the Providence papers from day to day during this canvas, and if we are to believe one half of what appeared in the *Journal* and the *Press*, the great families of our State have been thoroughly disgraced. We do believe it, because we know that it is no new thing to resort to these measures. The *Press* has been especially indignant at the course of its opponents, just as though it had carried on this kind of electioneering, and who, in fact, was the moving spirit of the present campaign. But for Mr. Sprague we should not have seen this state of things at all. His claim to supremacy, which he hopes to maintain by the aid of his million dollars, gave rise to the present contest, and now his candidate refuses to run because of the confessed corruption of the party under his guidance. Modesty in making charges of corruption against opponents under such circumstances would be a virtue.

It is said that this species of partisanship is now to be carried into the State at large, and that these scenes are to be re-enacted in all the towns. We hope not. The great families had better fight their battles on some other basis. We are not particular which beats, or which gets beaten in the contest. We know nothing about their private quarrels and care as little as we know. They are their own masters and not ours and we trust the people will not consent to be drawn into a controversy over what does not concern them in the least.

The Completion of the Pacific Railroad.

There are those now living, and in the prime of life, too, who remember the time when the Mississippi was the far, far West. Beyond it was almost a *terra incognita*.—To reach that stream from the country east of the Alleghanies required a long and toilsome journey. The emigrant drove his own team, and carried with him his household goods and his stores for the trip. His journey was often the work of weeks.

Yet, even thus, new States were established. Homes sprang up in the forests of Indiana, Michigan and Wisconsin, and on the prairies of Illinois. Gradually the railroad train usurped the place of the emigrant's wagon. The iron horse pushed on westward through the forests and over the prairies. With him rolled a new tide of population, which overflowed the land and rapidly built up an empire in the Mississippi valley. The shriek of the steam whistle upon the eastern bank of the Mississippi was the resolute hail of civilization to the vast country beyond. The spirit of conquest was thoroughly awake. The eastern half of the continent had been subdued by civilized man, and he was ready for the remainder. The locomotive was the best emblem of his power. It was like the pipe through which the diver maintains his connection with the upper air. It was his medium of communication with all he left behind when he penetrated the wilderness. It brought him clothing, furniture, books, newspapers, and letters from the friends left behind. It carried away the surplus products of his toil. It was the agent which utilized the fertility of the wilderness and, while it carried out to it inhabitants, made it habitable. Its function in the rapid developement of the American continent will never be adequately understood. It has worked miracles surpassing those of Eastern fairy tales. Its grandest triumph is that just achieved in the completion of the Pacific railroad, for the path in which he treads is the work of the iron horse himself. A week hence we may see in New York a locomotive, gay with flags and streamers, which yesterday was in San Francisco; which has thundered through the gulches of the Sierra Nevadas, attracting the [illegible] of red shirted miners at their work; which has broken the solitudes of the Rocky mountains, and scared the sullen grizly bear from the neighborhood of its track; which has disturbed the isolation of Mormondom, founded by a most adventurous migration, and long conserved against the tide of "Gentile" settlement; which has scattered herds of buffaloes on the plains, evoked the curses of envious aborigines and attracted to wayside stations crowds of frontier farmers; which has been hailed with ovations in a hundred towns and villages between Omaha and New York. It is easy for this to happen, for already passengers from San Francisco have come through in eight days. And yet the time when it would have been pronounced impossible, and when he who predicted it would have been pronounced a madman is so recent, that it seems even to us scarcely less than a miracle—us who read last night's dispatches from London in this morning's paper, and to whom such miracles have become every day events.

In the upper counties of Virginia peanuts will take the place of tobacco, to a large extent, the coming season. The peanut culture has grown up almost entirely since the war, and its present magnitude may be chiefly ascribed to the fondness contracted for these nuts by the soldiers of both armies, who occupied by turns, the section of country in which they were cultivated.

Paying the Debt.

The importance can not be exaggerated of Secretary Boutwell's announcement that he will receive proposals, on the 12th inst., for the sale to the Treasury of $1,000,000 of the five-twenty bonds, and will weekly thereafter, until further notice, receive proposals for the like amount. Bids are likewise invited for the purchase of a like amount of the surplus gold week by week. Whether Mr. Boutwell shall hold the bonds bought as a sinking fund, or shall at once cancel them, the effect will be substantially the same.

The operation is simple and business like. The Treasury contains at least fifty million dollars in gold above any probable demands upon it. Its revenues exceed its expenditures. The surplus gold is likely to increase, unless it be put to use. As the appropriations have been reduced very considerably for the coming year the current revenues may be relied upon to meet any probable charge. Having an excess of money above its immediate necessities, the Government turns naturally and wisely to apply it towards paying the principal of the debt, thus reducing the interest.

The caution and prudence of the Secretary are exhibited in the system of purchase he adopts. He proposes to buy weekly an amount of bonds, such as it is is to carry five-twenties up to 119 1-2—the highest price ever reached, and to counteract two per cent. of the advance in gold caused by the unfavorable financial news from London.

So far we find general approval of the course of Secretary Boutwell in announcing his purpose to devote the surplus gold to a systematic withdrawal of the government bonds. Objection may come however, from the speculators in gold. But the common sense of plain people will agree with the judgement of disinterested financiers, that the best thing our government can do with its surplus money is to reduce its debt.

The steady enforcement of this policy will add another to the marvels of our history. Let us pay a million dollars a week on the principal of our debt, and our financial triumph will rank with our victory in the field.

WHO ARE IN CONGRESS?—Once in a while the Congressional *Globe* contains a little really interesting reading. Thus we learn from it that in the present House there are one hundred and thirty-one lawyers, seven editors, ten merchants, seven bankers, eight manufacturers, fifteen farmers, two planters, 5 general business men, one coal operator, two lumbermen, two real estate agents, two physicians, two railroad managers, three clergymen, one printer, and one agriculturist. One of the 'general business men' is the Hon. Geo. M. Adams of Kentucky, who last year bore a solitary testimony against the levelling, democratic tendencies of the day by describing himself as a 'gentleman.' The 'agriculturalist' is a Marylander who was quite bent upon bearing a similar testimony, but finding after a thorough canvass of the House that he would be the only gentleman by profession in the list, took the other title. We should perhaps explain that 'agriculturist' is the snob for farmer.

IMMIGRATION.—Notwithstanding the theory of economists, that under the present system of tariff and revenue laws the rich are made richer and the poor poorer, the number of laborers disposed to take their chances in America was never so great as during the present season. The immigrant movement began this year earlier than usual, and has steadily increased as the season has grown genial and attractive. No single country furnishes a preponderance large enough to give its peculiar cast to the new population, though the steamships and packets from Germany are more heavily laden than usual, and the British Islands sends a larger representation than in former years. The colonial movement in Great Britain is absorbing a portion of the more dependent class of laborers, leaving those who are in a position to choose for themselves, to swell the tide of emigration westward.

MR. SPOONER DECLINES.—Mr. Spooner President of the State Alliance, in a letter read before that body refuses to yield to the request of the Executive Committee, and resign. He claims, that he was elected by the Alliance, and not by the Executive Committee of the Alliance; and that it would be quite as proper for him to request the committee to resign, as for the committee to ask him to do so. He denies that he has misrepresented the Alliance; insisting, that while expressing frankly his own views, he has been careful always to state, that the Alliance differed from him on certain points. While declining to resign, he says, if the Alliance takes the position that an officer of that body will not be tolerated in holding and expressing an opinion in opposition to that of the majority, then it will not be necessary to ask him to resign. In conclusion he says:

I believe in discussion. I believe in majorities, and to its final decisions I gladly submit, but I do not believe in the suppression of minorities.

After discussion, the Alliance postponed the whole subject.

CANCEL YOUR STAMPS.—The Commissioner has recently issued a circular relative to the cancellation and affixing of stamps to instruments, &c. The circular directs that all stamps shall be so affixed as to expose to view the entire upper surface of each stamp so affixed, and the person shall cancel the same by writing or imprinting in a legible manner with ink upon each stamp the initials of his name and the date. Those who leave the stamp uncancelled or cancel it by a cross or other mark, or in any other manner than above prescribed, violate the law.

Earl Radnor, a youth of 91, is dead.—He remembered going through the cells of the Bastile the day after it was sacked.

About Home.

SUMMER RESIDENCES.—The Fall River *News* quotes us as saying that four houses have been let in this city for the summer, and leaves the matter as though this were all. We simply made an item that Mr. Alfred Smith had let these cottages in one day, and gave it as an illustration of what is going on in town. We have no means of knowing how many have been let, but the number is large.

SALE POSTPONED.—The auction sale of furniture, carpets, crockery and glass ware that was to have been at the Ocean House, this day, is postponed until Tuesday next, the 18th, at the same place, at 10 o'clock, a. m., as will be seen by advertisement in another column.

THE PROVIDENCE BOATS.—We are now having two boats a day from Providence, the Bay Queen, Capt. Allen, and the Whatcheer, Capt. Fuller, both being on the route. The arrangement is a great convenience to the public. The City of Newport is off for repairs and will be returned in good season.

CRUELTY TO ANIMALS.—A man (?) in Newport, who has been in the habit of riding in a wagon drawn by a big Newfoundland dog, now makes a small goat draw his vehicle. Which is the greater brute does not admit of argument.—*N. B. Mercury.*

and a splendid seed time.

Providence.

The election, yesterday resulted as almost every one expected from the first in the election of Hon. Geo. L. Clarke Mayor who has a majority of 1418 over both Doyle and Van Slyck. Mr. Clarke and the regular republican ticket carried every ward in the city. This is a great triumph for the anti Sprague men who feel that they have now convinced the Senator that he is not supreme in Rhode Island. Though Mr. Doyle declined, his friends persisted in voting for him and did so to the last.

The *Herald* says the wind was high a good part of the day, and we noticed many voters in the same condition.

The Ladies' Room at the depot, after having been for a long time closed for repairs, was on Monday opened for the accommodation of the traveling public. It is now one of the handsomest depot apartments we know of.

A colored inmate of the Rhode Island Hospital, named William H. Hilton, left there on Tuesday, and his present whereabouts are unknown. He was insane, and about twenty-five years old.

MEMORIAL CHAPEL.—The construction of a chapel adjoining the Congregation Chapel in Bristol has been commenced. The building is the gift of Mrs. Robert Rogers and her sister Miss Charlotte De Wolf, and is erected as a memorial to their parents from whom the means of building it were inherited. The plans of the building were drawn by Seth H. Ingalls, of New Bedford, and the work is done by his brother William.

The *Standard* says Mr. S. O. Dunbar has forwarded his bond to Washington, for the faithful performance of his duties as postmaster of Taunton, and will enter on the duties of the office in a few days.

Mr. Edmund D. Hathaway, who resided at Assonet Narrows, died of lockjaw on Saturday last. A day or two previous he cut a corn from one of his toes, and subsequently went to the river, put his foot in the water, caught cold, and it is supposed lockjaw resulted therefrom. He was about seventy years old.

Monday evening the fishermen at Mattakeeset Bay, near Edgartown, took 200 barrels of herring in their seines. Not having salt enough to cure the whole, a large portion were given away and used upon the land.

The house, store and goods of Heman C. Crocker, at South Sandwich, were totally destroyed by fire last night. The fire was the work of an incendiary.

Sylvan Johnson, colored, aged about 70 years was burned to death at Herring Pond yesterday while attempting to put out a bonfire.

THE STONE CRUSHER CONTROVERSY.—The *Standard* thinks the paragraph in the *Mercury*, which the *News* copied, is calculated to mislead the public as to the value of the stone crushing machine owned by the city, as it stated that a large portion of the stone used is broken too finely to build a durable road. If people will call at the stable yard, they will find that Superintendent Terry has fitted a screen under the machine, by which the fine particles are separated, leaving the broken stone in a better condition than broken by hand, as far as dust is concerned. The screenings are said by competent masons to be a better article than any sand found in this vicinity for mixing mortar; so that it is not lost. The crushing of stone now costs 15 cents a ton, and it could not be done by hand mauls for less than half a dollar.

Several beautiful specimen's of French China have been imported, from which Mrs. President Grant is to select a dinner set for the Executive Mansion. The pieces are of several patterns and of beautiful designs, each peace being decorated with fruits, flowers, game, &c., all bearing the President's monogram, in gold, and coat of arms of the United States. The dinner set will be an elegant affair, comprising over five hundred pieces, and will be used on State occasions only at the White House.

It is to be hoped that those patriots who are so anxious to get the country into another war, will not attempt to dodge the conscription in case of its outbreak. It is to be hoped they will not cry out against the taxes which it will necessarily involve. It is to be hoped they will not deal in shoddy or try to get contracts. It is to be hoped they will understand themselves before they go in, and understand the business into which they are going, so that there may be no trouble with them afterward.

A gentleman in Washington who holds a position to which is attached a small amount of patronage, says that persons who visited that city to participate in the inaugural ceremonies, and subsequently became applicants for high positions, have, in several instances, solicited from him temporary employment, even as laborers, to enable them to earn a sufficient sum to carry them home, they having failed in their applications for office.

In Marathon, a few days since, a boy fell in the water. His mother attempted to rescue him, but could not do so, and called for help. A rich old chap, riding with his son, sent the lad to ascertain what was the matter, and learning that a boy was drowning, drove at a smart pace to a house half a mile away, and told the people they had better go the aid of the drowning boy.—They asked him why he had not done so and he replied that he had on his best clothes and did not wish to get them wet. When they got to the scene of the accident they found the child was dead.

TELEGRAMS.

FROM WASHINGTON.

WASHINGTON, May 12, 1869.

GEN. MCCLELLAN CALLS ON THE PRESIDENT.

Gen. Geo. B. McClellan, accompanied by Gov. Randolph of New Jersey, called at the White House this morning and had an interview with the President upon some business relating to the construction of the Stevens battery in New York harbor. In the course of the interview the question of the defence of that harbor was discussed incidentally. This is Gen. McClellan's first visit to Washington since he left the command of the army six years ago.

REMOVALS.

Several clerks in the Sixth Auditor's Office Department, were dismissed this morning, and among them Mr. J. O. Wilson, Chief of the Miscellaneous Division.

FEMALE CLERKS IN THE PATENT OFFICE.

Rooms are being fitted up in the Patent Office branch of the Interior Department for the employment of fifty-three female clerks, who will be assigned for duty about July 1st. The clerks in the employ of this office have hitherto done their writing at home.

INTERVIEW WITH THE PRESIDENT.

Mayor Shurtleff and his associates from Boston called last night and after greetings, the Mayor presented the official invitation to visit Boston during the Peace Festival, which the President read. Pleasant conversation ensued. The President would not give a positive answer, but he stated that he should visit West Point in June to see his son, who is a cadet, and gave the committee ground on which to base hopes that he will be present at the Boston Festival. His reception of the Bostonians was very cordial; and he expressed himself highly gratified by his previous visit to the eastern metropolis of the republic.

REPORTED LOSS OF SEVERAL LIVES.

—o—

LOSS OF PROPERTY $200,000.

CINCINATI, May 12.

The most destructive conflagration of steamboats that ever occurred in this city raged this morning at the landing of the New Orleans and Memphis Packet Companies. The fire broke out in the steamer Clifton and extended to the Wesmoreland, Melnotte and Mary Erwin above, and to the Cheyenne and Darling below. The six boats were soon enveloped in flames. The hulls of the Melnott and Darling may be used again; the others are a total loss.

The fire originated in the chambermaids room of the Clifton by the upsetting of a coal oil lamp. Fourteen kegs of gunpowder on the Cheyenne exploded and scattered the flames to the Westmoreland. There were two hundred barrels of coal on the Cheyenne and twenty-five barrels on the Westmoreland.

Rumors are afloat several lives were lost, but up to noon no names are reported.

Total insurance $1,250.

PROPOSED ALLIANCE AGAINST THE UNITED STATES.

LONDON, May 11.

Initial steps have been taken for an alliance, offensive and defensive, between England, France and Spain, against the United States, the rejection of the Alabama treaty, the tone of Mr. Sumner's speech, the alleged fillibustering tendencies of Gen. Grant's administration, and the reported connivance at expeditions from the United States against Cuba, being made the pretexts of a necessity for such alliance.

ST. PETERSBURG, May 11.

The Government is considering a plan for reorganizing the Roman Catholic Church throughout the empire.

The Ladoga (Indiana) *Herald* says: 'There lives near Billville, Hendricks county, a peculiar family—three boys and three girls. The oldest girl is about twenty four years, weighs about two hundred pounds, is a very intelligent lady, but we noticed one peculiar feature not common among the fair sex—she had a heavy beard (minus the mustache), which is about two inches long and of auburn color. The beard on the chin of this lady is the heaviest. We did not perceive any on her throat, nothing but regular side and chin whiskers. We were informed that her beard has grown more rapidly during the past year. The next girl is seventeen years old, born blind, and is an idiot; the next is a girl fourteen, born blind. The three boys are all intelligent young men. The parent of this family is one of the wealthiest men in Hendrick's county.'

ANOTHER INDIAN WAR IMMINENT.—An officer who left Fort Harker, Kansas, ten days ago, reports great uneasiness among the Cheyennes, Arapahoes, Kiowas, and some of the Comanche bands. These tribes were the objective points of General Sheridan's campaign into the Indian country last winter. The losses which they sustained in warriors and stock seemed to make an impression at the time, and every reason was presented to lead to the belief that the tribes would be willing in the future to remain quietly upon their reservations. The approach of summer, however, seems to arouse afresh their warlike spirit, and again the plains and frontier settlements are threatened with a summer of devastation and bloodshed. The chiefs of the tribes declare that their goods are withheld from them and the promises of the government have not been fulfilled. Most of these Indians are in the vicinity of Medicine Bluff Creek, and received their annuities there in Febuary last. Those that have not come in have no right to expect anything. The complaints are considered nothing more than the forerunners of another outbreak as soon as the grass is sufficiently advanced and the ponies have recuperated in strength and flesh.—*N. Y. Herald.*

On the 30th ult. a small boy fell off a wharf in Portsmouth, N. H., and was rescued from drowning by the bystanders. Seeing his mother coming down the street, he [illegible] preferring to [illegible] rather than risk the consequences of getting his clothes wet. Accordingly, he sprang into the water three times more, and was taken out each time with considerable difficulty. Finally, his mother promised not to whip him, and he consented to accompany her. No sooner had the boy got home, however, than the woman broke her promise and gave him an unmerciful thrashing.

The tickets for the Boston Peace Jubilee are printed from the plate engraved by the New England Lithograph Company. In the centre is a representation of the Coliseum, surmounted by the words "National Peace Jubilee," and a dove with an olive branch in its beak. The tickets are signed by E. D. Sordon, Treasurer, and with the exception of a few emblematic devices in one corner, and the monogram "N. P. J." in the right hand corner of the coupon, are quite plain.

The New London *Star* says that the ship builders of Mystic have contracted to build fifteen gunboats for the Spanish government. They are to be done, part of them in sixty and the balance in ninety days, and to be about 110 tons each. The Delameter works at New York having a contract to build fifty, gave fifteen of them to Mystic.

A number of fossil serpents were recently discovered in a coal mine near Fulton, Ohio, imbedded one hundred and thirty feet below the surface. The reptiles, some five or more feet in length, preserve their forms most perfectly, and efforts are being made to secure, without fracture, a group of two or three that are lying side by side.

Business Notices.

PLANTATION BITTERS are especially recommended to Clergymen, Public Speakers and persons of literary habits and sedentary life, who require clear mental faculties, which can only be obtained by a relish for food, and a perfect digestion. What is a Tonic?

Bear this in mind,—that although a tonic is, to a certain extent, a stimulant,—*a stimulant, unmodified by any medicinal substance, is not a tonic, but* A DEBILITANT. In HOSTETTER'S STOMACH BITTERS there is a stimulating element of the purest grade manufactured in this or any other country.—Every fiery and corrosive oil or acid which contaminates the ordinary liquors of commerce, is expelled from the RYE SPIRIT which forms the alcoholic basis of the BITTERS, by careful and repeated rectification. The juices of the valuable roots, barks and herbs, infused into this wholesome product of the finest grain, still further modify its nature; so that it becomes, in fact, a simple diffusive agent, minus all the heady and brain exciting properties which belong, more or less, to all liquors in a raw state.—It is merely the safe and harmless vehicle which renders the medicinal virtues of the preparation effective,—increasing their active power, and diffusing them through the system. Hence the pleasant and gentle glow which is experienced after taking a dose of the BITTERS. Instead of creating headache, as unmedicated stimulants are apt to do, this celebrated tonic is the best known remedy for that complaint. It calms and soothes cerebral excitement, strengthens the nerves, promotes the secretion of the gastric juice, invigorates the bowels, determines the fluids to the surface, improves the appetite, increases the animal vigor, regulates organic action, and, from its mild yet effective alterative qualities, is the very best preparation that can be administered to the weaker sex in the peculiar difficulties to which their organization subjects them.

Schenck's Pulmonic Syrup,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover St., Boston, Wholesale agents. For sale by all druggists. Jan4—1y sn

HELMBOLD'S
Concentrated Fluid Extract SARSAPARILLA

ERADICATES ERUPTIVE and ULCERATIVE DISEASES OF THE

THROAT, NOSE, EYES, EYELIDS, SCALP, and SKIN,

Which so disfigure the appearance, PURGING the evil effects of mercury and removing all taints, the remnants of DISEASES, hereditary or otherwise, and is taken by ADULTS and CHILDREN with perfect SAFETY.

TWO TABLE-SPOONFULS of the Extract of Sarsaparilla, added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoctions as usually made.

AN INTERESTING LETTER is published in the Medico-Chirurgical Review, on the subject of the Extract of Sarsaparilla in certain affections, by Benjamin Travers, F. R. S., &c. Speaking of those diseases, and diseases arising from the excess of mercury, he states *that no remedy is equal to the Extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic with this invaluable attribute, that it is applicable to a state of the system so sunken, and yet so irritable as renders other substances of the tonic class unavoidable or injurious.*

HELMBOLD'S
Concentrated Extract Sarsaparilla,

Established upwards of 18 years. PREPARED BY

H. T. HELMBOLD,

FRANKLIN MUTUAL FIRE INSURANCE CO.

WOOD'S BUILDING, No. 12 South Main, Cor. College Street, Providence.

INSURES FIRST-CLASS DWELLINGS AND CONTENTS ONLY.

AMOUNT AT RISK, $4,500,000.

The object of a Mutual Company is to furnish insurance to its policy holders at the actual cost, and the main thing to be considered is, what conditions are most favorable to make the actual cost as near nominal as possible. This Company will insure nothing but Dwellings and Household Furniture, which experience has shown to be the SAFEST OF ALL INSURANCE RISKS, thus putting the liability of losses at the LOWEST POSSIBLE STANDARD. The premium charged is sufficient to cover all probable losses and expenses during the term for which the policies are issued, thus avoiding the necessity of assessments, which are always *disagreeable and expensive.* The insured receive all the profits,—every dollar, after deducting the necessary expenses, being invested for their benefit, and returned to them at the expiration of their policies, thus offering one of the safest and cheapest systems of insurance.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;
Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of
BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,
is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is **No. 21**, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX
boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he
is the only regular graduate physician advertising in Boston.
SIXTEEN YEARS
engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to
Strangers and Travelers.
To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities,

DR. L. DIX
proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!
be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of
FOREIGN AND NATIVE QUACKS,
who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by
QUACK NOSTRUM MAKERS,
through false certificates and references, and recommendations of their medicines by the dead, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.
Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.
Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S
charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

No. 78 State St., opp. Kilby St., Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGHART."

☞ THE TROUPE THIS SEASON,
As regards extent and variety of talent, cannot be equaled, composed, as it is,
ENTIRELY OF FIRST CLASS ARTISTS,
who have no rivals in their astounding specialties, and whose intensely exciting Performances can be seen in no other exhibition in the world.

The Press teems with LAUDATORY EULOGIES of the EXALTED EXCELLENCE of the Mammoth Troupe, and OVERFLOWING AUDIENCES, fashionable and critical, attest with rapturous applause, and other manifestations of popular delight, the thorough appreciation of

THE PROLIFIC TALENTS
of the Matchless Cluster of Artists of the
Leading Circus of the World!

The exhibition will be given with the same unparalleled splendor that has always characterized the entertainments of STONE & MURRAY, and they are warranted to be the most
REFINED AND ATTRACTIVE
Arenic Performances ever offered to the Public.

LOOK AT THIS SUPERB CATALOGUE:

MLLE. EMILIE HENRIETTA COOKE

HORACE WATERS.

TESTIMONIALS.
The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument.* Stronger endorsement we could not give.—*Home Journal.*

TSING TEA--Black Dragon Chop!
Natural Leaf, perfectly pure (Tsing signifies pure).
Prepared without any coloring or foreign substance.
Cured on Porcelain (not copper), over a slow fire.
Delightful flavor, exceedingly powerful and strong.
Combines all the healthy virtues of the Tea plant.
Mandarins and higher classes of natives use no other.

This celebrated Tea was first introduced here by the ORIENTAL TEA COMPANY, in May, 1868, when the limited quantity imported was rapidly sold, at the high price of $1.50 a pound. It met with such unqualified approval, and the demand for it from all sections was so great, that the Company at once made arrangements to procure a larger supply, upon more favorable terms, for the future; and they have just received the first invoice for this year, which will be sold at the low price of $1.10 a pound, at which (but little over half what it cost one year ago), it is the cheapest Tea known; and the Company feel that they cannot too highly recommend it to all who drink Tea, as it possesses the flavor, and strength, and the soothing, invigorating properties of both Black and Green, without any injurious quality; being chemically pure and free from coloring matter or any foreign mixture. It will suit the taste and please all who love Tea.

This tea is put up neatly in pound parcels, 25 pounds in a chest, with the price, $1.10, printed on each package. The wholesale price by the chest is $1.00 a pound, and orders from Grocers, Hotel-Keepers, Peddlers, Clubs, or Families, for chests of 25 pounds or more, will be filled at the *wholesale* price. Parties living in towns where we have agents can always get this Tea from them.

Like all other goods sold by the Oriental Tea Company, this Tea is warranted to give entire satisfaction; and parties ordering, can do so with the full assurance that if the whole or any part fails to suit, it may be returned at our expense, and we will refund the money.

SPECIAL NOTICE.—As a matter of convenience to the public we are arranging with Apothecaries and other Merchants, all over the country, to act as Agents for selling our Teas and Coffees in their locality, at our warehouse prices. *Our profits are small, but we give over four-fifths of them to Agents as commission.* We want an Agent in every town in the Union, and will send full particulars, terms, price-lists, &c., upon application by mail from Traders desiring it. COMPLAINT.
Important Certificate.
Having been afflicted with chronic disease of the digestive organs, (described by physicians as enlargement of the liver and inflammation of the stomach,) for more than ten years, and suffered what words can never describe, without relief from the most celebrated medical skill that could be consulted, I was induced by the physician who last attended me to try **Dodd's Nervine and Invigorator.** He had witnessed its effects, he said, in his own practice, and could recommend it in the highest terms. I had about lost faith in everything; but I followed his advice, procured the medicine.—The effect inspired me with hope. I continued its use, and still improved; following it up, I grew stronger and stronger, and suffered less and less from my troubles. This for some months—until I was relieved and needed it no longer. Dodd's Nervine restored me to complete and sound health; and no language is able to express the gratitude I feel at being well once more. I am thoroughly cured of the horrible suffering that had made ten years of my life most wretched. No one can conceive my joy who has not experienced a like recovery. E. B. LIBBY,

The ÆTNA has the largest paid up Capital of any Company in the United States and has paid more losses than any other. It is the most standard Company of the country, and is celebrated everywhere for its honorable method of doing business. Its rates are as low as is consistent with safety, than is charged by others, though it does not pretend to compete with irresponsible institutions.

The Agency for Newport is at the **Office of the DAILY NEWS, No. 13 Church Street.**
